Re: Government-to-Government Consultation on Regional Long Range Transportation Plan, Transportation 2030

Dear Hon. Greg Sarris:

MTC is pleased to announce the release of the *Draft Transportation 2030 Plan*, which details how the San Francisco Bay Area's transportation system will be maintained, improved and expanded over the next 25 years. A copy of the plan either has already been mailed to you or is enclosed with this transmittal. An accompanying document, the *Transportation 2030 Plan Draft Environmental Impact Report* (EIR) also is available. Additional copies of the Plan and copies of the EIR may be downloaded from the MTC web site at <http://www.mtc.ca.gov/T2030/> or requested from the MTC/ABAG Library (510.464.7836).

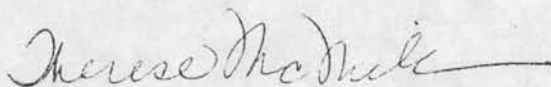

The Bay Area's transportation infrastructure long has been straining under the dual burdens of overcrowding and underinvestment. The *Draft Transportation 2030 Plan* charts a different course for our future. Through the concerted efforts of Bay Area citizens, local elected officials, tribal governments, and our representatives in Sacramento and Washington, we can restore our road and transit systems, squeeze more efficiency out of our existing transportation network, provide more and better options to solo driving and rush-hour gridlock, and raise the funds to finance these improvements. The *Draft Transportation 2030 Plan* is a call to action — and a plan of action — to secure these objectives.

MTC developed the draft plan in concert with dozens of partner agencies and thousands of residents from throughout the nine-county region who expressed their views over the past 18 months. Development of the final plan, which is scheduled for adoption by the Commission in February 2005, will be influenced by comments by tribal governments, public agencies and members of the public.

Should representatives of the tribal government care to meet in person to conduct government-to-government consultation on the *Transportation 2030 Plan*, MTC Executive staff can arrange to meet at your offices. Please contact Lisa Klein of my staff at 510.464.7832 to arrange a meeting with Executive Director Steve Heminger or myself. MTC also welcomes comments on the Plan and EIR via the MTC web site (<http://www.mtc.ca.gov/T2030/>) or in writing by January 7, 2005. In addition, MTC will take comments at a public hearing from 10 a.m. to 12 p.m. on December 15, 2004 at our Oakland offices.

Beyond the *Transportation 2030 Plan*, we would be happy to meet with you at any time to conduct government-to-government consultation on regional transportation planning and funding processes in general.

Sincerely,

Therese McMillan
Deputy Director, Policy

Re: Government-to-Government Consultation on Regional Long Range Transportation Plan, Transportation 2030

Dear Mr. Glen Villa:

MTC is pleased to announce the release of the *Draft Transportation 2030 Plan*, which details how the San Francisco Bay Area's transportation system will be maintained, improved and expanded over the next 25 years. A copy of the plan either has already been mailed to you or is enclosed with this transmittal. An accompanying document, the *Transportation 2030 Plan Draft Environmental Impact Report* (EIR) also is available. Additional copies of the Plan and copies of the EIR may be downloaded from the MTC web site at <http://www.mtc.ca.gov/T2030/> or requested from the MTC/ABAG Library (510.464.7836).

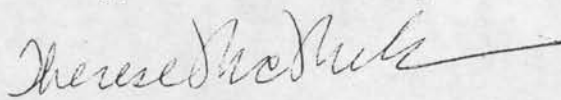

The Bay Area's transportation infrastructure long has been straining under the dual burdens of overcrowding and underinvestment. The *Draft Transportation 2030 Plan* charts a different course for our future. Through the concerted efforts of Bay Area citizens, local elected officials, tribal governments, and our representatives in Sacramento and Washington, we can restore our road and transit systems, squeeze more efficiency out of our existing transportation network, provide more and better options to solo driving and rush-hour gridlock, and raise the funds to finance these improvements. The *Draft Transportation 2030 Plan* is a call to action — and a plan of action — to secure these objectives.

MTC developed the draft plan in concert with dozens of partner agencies and thousands of residents from throughout the nine-county region who expressed their views over the past 18 months. Development of the final plan, which is scheduled for adoption by the Commission in February 2005, will be influenced by comments by tribal governments, public agencies and members of the public.

Should representatives of the tribal government care to meet in person to conduct government-to-government consultation on the *Transportation 2030 Plan*, MTC Executive staff can arrange to meet at your offices. Please contact Lisa Klein of my staff at 510.464.7832 to arrange a meeting with Executive Director Steve Heminger or myself. MTC also welcomes comments on the Plan and EIR via the MTC web site (<http://www.mtc.ca.gov/T2030/>) or in writing by January 7, 2005. In addition, MTC will take comments at a public hearing from 10 a.m. to 12 p.m. on December 15, 2004 at our Oakland offices.

Beyond the *Transportation 2030 Plan*, we would be happy to meet with you at any time to conduct government-to-government consultation on regional transportation planning and funding processes in general.

Sincerely,

Therese McMillan

Re: Government-to-Government Consultation on Regional Long Range Transportation Plan, Transportation 2030

Dear Hon. Liz Derouen:

MTC is pleased to announce the release of the *Draft Transportation 2030 Plan*, which details how the San Francisco Bay Area's transportation system will be maintained, improved and expanded over the next 25 years. A copy of the plan either has already been mailed to you or is enclosed with this transmittal. An accompanying document, the *Transportation 2030 Plan Draft Environmental Impact Report* (EIR) also is available. Additional copies of the Plan and copies of the EIR may be downloaded from the MTC web site at <http://www.mtc.ca.gov/T2030/> or requested from the MTC/ABAG Library (510.464.7836).

The Bay Area's transportation infrastructure long has been straining under the dual burdens of overcrowding and underinvestment. The *Draft Transportation 2030 Plan* charts a different course for our future. Through the concerted efforts of Bay Area citizens, local elected officials, tribal governments, and our representatives in Sacramento and Washington, we can restore our road and transit systems, squeeze more efficiency out of our existing transportation network, provide more and better options to solo driving and rush-hour gridlock, and raise the funds to finance these improvements. The *Draft Transportation 2030 Plan* is a call to action — and a plan of action — to secure these objectives.

MTC developed the draft plan in concert with dozens of partner agencies and thousands of residents from throughout the nine-county region who expressed their views over the past 18 months. Development of the final plan, which is scheduled for adoption by the Commission in February 2005, will be influenced by comments by tribal governments, public agencies and members of the public.

Steve Kinsey, Chair
Marin County and Cities

Jon Rubin, Vice Chair
San Francisco Mayor's Appointee

Tom Ammiano
San Francisco and County of San Francisco

Steve Heminger
Executive Director

Ann Flemer
Deputy Director/Operations

Therese W. McMillan
Deputy Director/Policy

Should representatives of the tribal government care to meet in person to conduct government-to-government consultation on the *Transportation 2030 Plan*, MTC Executive staff can arrange to meet at your offices. Please contact Lisa Klein of my staff at 510.464.7832 to arrange a meeting with Executive Director Steve Heminger or myself. MTC also welcomes comments on the Plan and EIR via the MTC web site (<http://www.mtc.ca.gov/T2030/>) or in writing by January 7, 2005. In addition, MTC will take comments at a public hearing from 10 a.m. to 12 p.m. on December 15, 2004 at our Oakland offices.

Beyond the *Transportation 2030 Plan*, we would be happy to meet with you at any time to conduct government-to-government consultation on regional transportation planning and funding processes in general.

Sincerely,

Therese McMillan
Deputy Director, Policy
